We oppose the granting of the Lahaina injection well permit unless additional conditions are placed on the permit as set forth in the letter of the DIRE Coalition to EPA. While they have identified a range of issues and concerns to which EPA has not spoken previously or which they have newly identified, all the supporting data was not provided to you in their letter. They are in the process of gathering these data (and preparing their presentation) and will provide them to you at the public hearing we are requesting. There are too many unanswered questions at this point and it's much too important of an issue to judge without all the research and data at your disposal to review. Please conduct this hearing to inform and guide the oversight necessary to ensure environmental protection.

Thank you,
Patricia and Jefferson Stillwell
